

CADOTT COMMUNITY SCHOOL DISTRICT

Facility Planning Community Survey Results

In November 2023, a survey was sent to area residents to gather feedback on proposed facility projects. The Cadott Community School District passed a \$9.965 million referendum in April 2023. However, stakeholders felt the previous referendum scope was lacking. Community members were presented with the following options:

OPTION 1 - \$11.2 MILLION

- Construct a secure entrance
- Technical education expansion
- Elementary school playground

OPTION 2 - \$25.4 MILLION

- Everything in Option 1
- Build a community center
- Create a learning center/daycare

NONE

- Use the \$9.965 million as the 2023 ballot wording dictates

The District received an impressive **35%** response rate, including 236 direct mail responses and 352 online replies. Overall, the community supported this venture, with nearly **73%** of respondents supporting one of the two proposed options.

The Board of Education would like to thank area residents for their participation. The high response rate provided valuable information. The Board will review these findings at the December 2023 meeting and determine the next steps in the facility planning process.
